Of all the vineyards in South Africa, Louisvale must have one of the most beautiful settings. The boutique vineyard and winery are
situated in the picturesque Devon Valley, just outside Stellenbosch.After entering the farm visitors drive through the vineyard to reach the main house and tasting centre. Once at the tasting centre there are stunning views down the valley and across to the mountains above Stellenbosch.From its position on the gentle slopes of the Devon Valley, Louisvale enjoys one of the most spectacular views of this idyllic area.Louisvale's reputation for quality is built on its Chardonnay.
No fewer than 11 successive vintages have been selected for the annual Nederburg Auction - an unsurpassed record for Chardonnay and proof of their wine's superior status. Tiny by world standards, Louisvale stands proud among New
World winemakers. In less than 20 years, its wines have garnered a host of awards and accolades. Today, Louisvale wines are enjoyed on four continents. Featured on international airline winelists, they are also sold in world-renowned restaurants and stores.
