

Professional Cable Cutters

When cutting cables or steel wire rope you need the right tool for the job and the **Felco** range has a model to satisfy the needs of users ranging from the DIY enthusiast to the professional user.

Professional cable cutters are subjected to extreme stress in the workplace, stress that the **Felco** range of cable cutters are capable of handling with ease.

The cutters are of the highest quality available and will satisfy the needs of the most demanding user.

The models offered by **Cape Agricultural Products** include.....

C7 Universal Cutters

This cutter can be used by craftsmen, electricians, foresters, DIY enthusiasts and also in repair workshops.

It is a small, single-handed cutter, compact, light and very easy to handle. The ideal tool to keep in your tool box.

Recommended for cutting spring steel wire up to 2.5mm and

cables up to **7mm**

Experience has taught us that to cut Steel Wire Rope 7mm thick will require 2 hands, but the tool will get through!

The centre bolt and nut, as well as the spring are replaceable.
