Photos are one of the most important things on your wedding day, as those are the only visual evidence you have of your memories. But if you are on a tight budget, it can be very costly to get a professional photographer. As a qualified photographer and graphic designer, I have a keen eye for detail and a lot of creativity to offer. Your wedding dress will look its best through my lens, and I am very skilled at photo manipulation.

If you are looking for a wedding photographer in the Helderberg area, especially in Somerset West, Strand or Gordon's Bay, don't hesitate to contact me. I am also willing to travel all over Cape Town and surrounding areas.
