ABOUT USThe majority of our clients are private and family businesses, professional service firms and high net worth individuals. However, we regularly provide services to non-profit organisations too.A business advisory service has been added to our portfolio recently. This valuable addition helps entities to adapt faster, see further and grow through time-saving and cost-effective business practices.By taking a genuine interest in our clients, we go all-out to understand their needs and meet, or preferably exceed, their expectations. In short, we’ re the relationship that clients can count on. To this end, we appreciate feedback on our clients’ service experience and suggestions to make meaningful adjustments. Even as we continually expand our services and update our technology, the confidentiality of our clients’ financial affairs is fundamental to our business practices.Finally, because our staff is pivotal to our work, we foster an encouraging and pleasant working environment, based on transparent communication and mutual respect.OUR SERVICESAudit and assuranceStatutory Audit and other assurance engagementsAgreed upon proceduresDue Diligence InvestigationsFinancial Reporting (IFRS for SME’S)Payroll servicesPayroll AdministrationSARS
