Brief Info: Years back, when we decided to go into the Pet Service Business, we set about finding the ideal grooming parlour for sale. In going behind the scenes, it quickly became apparent that we could never leave our two 'Babies' for a hair-do at any of the places that we looked at. We concluded that for us to go into the business of Grooming Dogs, our priorities would be: PET COMFORT and SAFETY first. Grooming should be as STRESS FREE as possible and an enjoyable experience for ALL. With that in mind, we custom designed our parlour to meet those goals. It was also important to us that Pet Owners be able to witness the entire process of grooming. Our 'See-through' premises provide for that.

To day, many customers express their appreciation for our thoughtfulness of the above and it's with great pleasure that we can report: "It's not only funny to see, but very rewarding when customers' Pets actually jump out of their owner's car, leads flying, tails-a-wagging and run straight into the parlour for his/her 'Hair-Do' on 'Pamper Day'. This in itself speaks volumes!

Our goal is to ensure that your pet enjoys a pleasant experience on each and every visit.
