ABOUT US:Be Sure Doors have been supplying security gates and burglar proofing to the residential and commercial market for more than a decade.We are dedicated to providing competitively priced products of the highest standard, paired with professional installation services. We pride ourselves to offer a service of uncompromised integrity and quality.OUR SERVICES:Expanding GatesSwing GatesPalisade FencingBurglar BarsTrellis GatesDriveway GatesBE SURE OF:Peace Of MindUncompromised QualityCompetitive PriceBest WorkmanshipExcellent Service5 Year GuaranteeWe offer a choice of security products to protect door and window aperture as well as specific application on request. All our products are made of high quality material which conform to SABS standards and are hot dipped galvanized to protect against rust infestation and finished with a baked epoxy powder coating to ensure a long-lasting and low maintenance product.Security gates: We offer a choice of security gates comparing either in the expandable format and rigid swing gates.Expanding security gates – the gates are full perimeter fixed and are suspended from a fixed top track from where the gate is suspended from roller pin wheels and seated within a fixed bottom-track. The gate is construed from 16mm square mild steel tubes, which is tied together with three rows of

horizontal trellis flights. The locks are fitted with a slam lock cylinder lock which activates a deadlock upon closure. Rigid swing gates – the gates are fixed to the wall with steel hinges and security bolts with a detachable head to deter tampering to the fixtures. These gates are either standard allocated gate constructed from 25mm square tube sub frame with 10mm solid round bar inlay and locked with a six-lever deadlock housed in a 25mmx60mm rectangular lock block. Specially produced gates can be made with upgraded materials to suit specific need and be lock with a variety of locking options. Burglar bars: Be sure Doors manufacture burglar bars in a variety of pattern designs. All burglar bars are manufactured to be fixed directly onto the wall surround and not onto the window sub-frame to ensure a firm fixture with detachable head security screw to deter tampering to the fixtures. Expanding security gates can be made to fit windows where a retractable barrier is required. Palisade & Fencing: Be Sure Doors can also assist with perimeter closure of properties with the installation of purpose made fencing and driveway sliding gates. All products are guaranteed against faulty workmanship, failing materials and rust infestation for a period of three years which was not subjected to negligent use and forced damage. Damage occurred due the latter can be repaired at a nominal cost.
