25 Gulden Cres, Guldenland
Strand 7140

Phone: +27 824600849

At A.C.I. Electrical, Plumbing and drain cleaning we cover all aspects of electrical work including domestic installations, maintenance, alterations, new construction from houses, schools and hospitals, industrial and commercial installations, both interior and exterior environments.Our Company covers all aspects of electrical work such as:• Domestic Installations
• Commercial/Industrial Installations
• Maintenance
• Alterations
• New installations
• Testing and InspectionWe are a self motivated Company who prides itself on being able to provide a one-stop service to our clients and because our depth of skill and knowledge is considerable, we are able to solve problems that can otherwise cause concern and disruption to contracts and make things happen.
We believe the start of a project is the most important phase when relationships are forged and information shared and systems established right through from the beginning of a project to the planning of the commissioning of systems.Each contract we undertake has a nominated person to oversee and be responsible for it and who gets involved, is contactable at all times and has the expertise to find solutions quickly for clients. This is just one example of our customer service policy because we and all our employees are committed to delivering the highest

standards of service to meet your needs and the full requirements of the contract. Our primary objective never changes – to ensure total customer satisfaction with a fast, efficient and cost-effective service.
