We are a family business, established in 1972, situated on Somerset West that has specialized in the manufacturing of components for the kitchen, office and shop fitting industry since 1985. Our main focus is on the manufacturing of post formed top bulkheads and a variety of door products. Our range of doors include PVC Wrap, Melamine, Solid Wood, Raw Supawood, Sprayed and Aluminium Doors. All our doors are made to the clients own specifications which allows for greater flexibility in design. The worktop range consists of Post formed tops, Timberline tops, Board 13 and Solid wooden tops. The postformed top range consists of the standard 32mm top and a range of deepline and vanity top profiles which have integrated down stand and splash backs. Other products supplied include Carcasing, Plinths, Hardware and laminate. Services we offer include computerised cutting (Cut outs for sinks and Hobs), Router Joints for post formed tops, Drilling of hinge holes, Cutting and edging post formed tops.
