Jane Visser Architects have, since 1993, specialized in well-crafted buildings which satisfy our clients' brief - yet deliver beyond expectations. We focus on a professional service to match our proven design ability. We have designed houses, hotels, wineries & industrial, schools, public buildings, group housing & site development plans. Visser Architects Design Studio design quality buildings for the people who are to use them. We are experienced at designing within a spectrum of budgets and building types. As each project is seen as an opportunity to understand the site, the environment and the client's needs in as much detail as possible, we feel this enables us to satisfy our clients with innovative & elegant solutions.
