Designed by leading architectural firm TV3, our trim, modern venue is a wonderfully neutral palette of raw surfaces and organic design. Bathed in warm, natural light, our interior is insulated by a water-wise, rooftop garden. With a 270-degree view of the Stellenbosch mountains, inside-out entertaining is a must. If you allow for a dance floor, the indoor area can seat up to 160 guests at beautiful, rectangular, oak tables that require no linens. Ceiling-to-floor windows and glass sliding doors on three sides allow guests to take in the majestic landscape.
