It might be cold all over South Africa but our hearts are beating warm awaiting a break in the weather to bring the good cheers out again.

Our early 2015 season umbrella events is something of the past but we're anxiously looking ahead to new events and ventures that await us just around the corner.

It would be a wise idea to make early enquiries with regards to our large umbrellas rentals for outdoor wedding events; for quantities 10 and more we suggest you make use of our setting up and striking down service.

We have found that our value added service provides the client with an option that frees them up to concentrate on other more important issues on event day.

Let us hear from you rather sooner than later and if your event is catering for 100 and more guests, do not hesitate to ask us on discounted rates other than our listed pricing.

See you soon!!!
