The advent of Richard Hilton Vineyards is the creation derived from one man's wish, to produce a wine for a reason alone; peace of mind.

This passion is driven out of a desire to unearth finite quantities of the finest single vineyard fruit. Only then, can a great wine be produced and ultimately savoured. Such unique grapes are meticulously selected with the help of the growers, and the result is a carefully crafted and totally unique wine.

My continual objective is to nurture wines of a perfect balance and a silky intensity, that both seduces, and appeals to the serious wine loverâ€¦.
