Comprised of two farms, situated on opposite ends of the breathtaking Franschhoek Wine Valley, Haute Cabrière is something extraordinary. A rich history, a whimsical setting, a seductive approach to wine and a magnetic proprietor ensure that it is a decadent affair for any visitor. The core belief that wine is grown not made makes the farm's ethos incredibly real and intrinsically human. Wine is more than what is in the bottle and it is considered an exceptionally intimate experience. This seductive conviction is intertwined with the farm's ultimate philosophy that wine is bigger than one, it's the combination of four factors: Sun, Soil, Vine, Man.
