Keeping wine simple You'll find us in the heart of the Boland, one of the finest wine-growing regions of the Cape. Our winery lies at the foot of the magnificent Paardeberg or "Horse Mountain", which was named in honour of the now extinct mountain zebra or quagga that used to roam its slopes. Our vineyards stretch over 2000 hectares and span 5 different microclimates, allowing us to produce a diverse range of award-winning wines for both the casual drinker and the discerning connoisseur. At Perdeberg Winery, we have a long tradition of excellence in winemaking. We prefer to set trends rather than follow them and we never compromise the exceptional quality of our wines, no matter what the market - or Mother Nature - throws at us. Above all, our philosophy is to keep wine simple!
