Our fifth MCC,is called Brut Nature (pronounce it like a Frenchman), which was bottled in 2008, and disgorged in batches since April 2010. We now add the date of disgorgement on the label so you can see exactly how long it spent on the lees. We have also released our fourth Chenin blanc (2009) and our third Syrah (2007) is about to be launched! Our once-only released Bordeaux blend (2006) called "the secret" (Specialis) is almost sold out and we miss it already. All these wines are made in very limited quantities, which means they get all the attention they deserve.
