HB Architects

50 Bosman’s Crossing Square, Distillery Road
Stellenbosch

Phone: +27(21) 8832506

HB Architects was founded in Cape Town in 1999, and formalised in 2003 by Professional Architect Stuart Hermansen, who remains the Principal Architect.We approach projects by gaining a thorough understanding of the particular spatial context – tangible and intangible – before developing a rigorous set of design tools pertinent to the project, which then guides the design process from initial sketch designs through to completion and hand-over to the client.Although completely integrated in our projects, our service can be separated into the following fields of expertise:ArchitectureArchitecture, interior design, space planningMasterplanning/Strategic Spatial PlanningUrban design
