Trees Unlimited, a Stellenbosch – based operation, is a professional tree services (arboriculture) company with its primary focus on tree health care. Like any living member of the plant kingdom, trees mature from seed and progress in their development until fully grown – modern arboriculture concerns the tree system: how it grows, its defence systems and how it eventually dies. TREES UNLIMITED finds creative ways of keeping trees healthy, safe and attractive.Arbour CareIn a tree’s lifetime, the following care procedures need attention:Corrective pruning of young trees for formGeneral pruning and shapingPruning of established trees including thinning canopies raising canopies, reducing hazardsPruning of palms/removal of fruitRemoval of dangerous/broken/dead branchesDismantling /removal of dangerous trees near buildings/fencesCrown reductions of many types of treesTree fellingCreating special effects eg pollarding (maintaining a fixed form) and espalier (training a tree along a fixed form)Canopy restoration of neglected trees (especially oaks)Vista pruning (opening up a view, but maintaining the privacy)Repairing of storm damaged treesCabling and bracing of hazardous trees
