Stellenbosch Optometrist SJ Van Heyningen has been in optometry practice for the past 16 years, having qualified in B Optom at the University of Johannesburg. His experience was gained from working at a number of optometry outlets around the country. He currently operates from seven practices within the Western Cape area, and a further practice in the Free State. The Stellenbosch Optometry mobile clinic provides eye testing and prescription services in various locations for people who do not have medical aid facilities. The staff visits fifteen day clinics each month.The vision of the practice is to provide every patient with personalised attention, professional diagnosis and advice, especially in the fitting and suitability of frames for the client’s personality and features. Stellenbosch Optometrist’s aim is to improve the sight of all their clients and thus impact positively their quality of life.The Practice – the following procedures are done at Stellenbosch Optometrist:• Free eye testing for your driver’s licence
• Ordering of lenses as per prescription
• Cutting and fitting of lenses in the frame of your choice
• Personalised advice on the frame which suits you best
• Fitting, cleaning and lubrication of contact lenses
• Provision of sunglasses for protection against the harmful UV rays of the sun
