FFE is a grower export company that produces and exports fresh produce from its shareholders and non-shareholders throughout South Africa. Together with its committed and loyal team FFE has established itself as a trustworthy source that has at its core a commitment to quality. Through the company's three brands - FFE, Cedarpack and Noordhoek - it has been able to distinguish itself as a professional export company with two packhouses in Citrusdal that enable it to provide fruit to the USA, the Far and Middle East, Russia, Europe and the Islands. The extensive range that FFE offers enables the company to supply produce 52 weeks of the year and its logistical alliance with Freight Logistics4u ensures that produce reaches the market in the most cost-efficient and effective way. Remaining in control of the product at all time also means that the service to its suppliers is optimised, with FFE reacting quickly to the needs of the customers and markets.
