Perfect Delivery was launched in 2000 and has become a household brand among bowlers nationally. Hard work, dedication and integrity drive our success. Our main objective has always been to assist the bowling fraternity with motor, home and business insurance policies that offer the best combination of cover, service and premium. We share our success with the bowling fraternity, through financial sponsorships on national, district and club levels. This philosophy and business strategy, combined with our very personal and professional approach underlines everything we do. Early in our second decade, in 2012, we launched our Perfect Delivery Wealth range of services. We are enthusiastic about this range and scope of financial services that include estate and financial planning, life assurance, investment advice, wills, trusts and estate administration. In 2014, we launched our Perfect Delivery Travel division offering package tours as well as individual tour planning. Through Perfect Delivery Travel, we also offer travel insurance that will provide you with cover against emergency medical expenses, cancellation costs, loss of luggage, death as well as repatriation. We will continue to apply our proven strategies and approach in everything we do, to offer you the best options that will fulfill your financial needs.
