Let Gensys Workforce Systems solve:
...your Access Control problems

Access control is a vital concern for a business of any size, today. With the rising number of invasion crimes, the rising security needs of businesses and other concerns, it has become more vital than ever to control access to your business. In addition, an UbukhoTime will allow you to limit access to specific areas within your business, ensuring the utmost in security and peace of mind....your Time and

Attendance and Job Costing problems

UbukhoTime provides a way to monitor the success of projects, task forces, work groups, or even the performance of entire departments or entire companies.

Whether your company needs this capability now, or sometime in the future, it's good to know that the tools are at hand when you need them.
