BioFires stylishly compliment room décor and provide supplementary heating for any room in your home, office or restaurant. Our diverse catalogue includes BioFires with designs and sizes to match many design themes.The glass cylinder houses a dancing flame, creating a beautiful focus point for the room, while a selection of bases means that you can coordinate the design of your room. Choose BioFires ranging in styles from minimalist to rustic, Zen or sleek and elegant.

Biofires are environmentally friendly, using BioFuel, which is a plant derivative and burns a bright flame that does not produce any smoke or fumes. The BioFire is odourless, unless you choose to use the aromatherapy option.One of the advantages of BioFires is that they can be used in any room, creating a warm, romantic atmosphere. During summer months your BioFire can burn on your patio, creating a wonderful atmosphere that will mesmerise your guests.What makes BioFires so special?~ Decorative Heat Source
