WOMAG, previously known as The World of Marble and Granite, is one of South Africa's most highly regarded suppliers of natural stone, engineered quartz surfaces, designer sanitaryware and porcelain tiles. Our company has been an indispensable tool to Builders, Architects and Designers for over two decades. As the first Company to introduce engineered quartz surfaces into South Africa with Caesar Stone, and more recently Silestone, (the new generation quartz surface which has built in anti-bacterial qualities) we have earned the reputation of being true Industry innovators. WOMAG is also a member of the Green Building Association of South Africa.
