Our tours are specifically aimed at nature lovers and photographers. We offer exciting, comprehensive, practical photography tuition presented by a professional photographer accompanied by a seasoned nature conservationist and qualified field Guide.

Our practical photography workshops include Nature, landscape, Social Documentary and Mystical Star Trails. All tuition takes place as we tour the incredibly beautiful Western Cape with its majestic mountains & rivers, gorgeous wine lands and interesting, indigenous peoples.

Let us take you on an unforgettable journey where you can experience, not only the breathtaking beauty of nature, but can also improve your photographic skills as well as develop new ones, at the same time.
