Let this dynamic Father & Daughter team capture the precious memories of your once in a lifetime sacred occasion with Natural, spontaneous, stylish and contemporary photography. With our combined effort and expertise we'll ensure your day will be perfectly unforgettable, with all the emotion and detail of your wedding day. You can relax and be stress free allowing your style and personality to shine through. Be prepared to be blown away as we capture the natural and spontaneous events throughout your day as well.

We also offer engagement shoots as part of our Platinum and Diamond Packages and encourage these shoots as they give the bride and groom a chance to work with their photographer before their big day. Engagement shoots are normally a hour long, they are shot mostly on location, but studio too. They can be silly, fun, romantic, outrageous or crazy. Couples often bring along a different outfit and a few props, such as balloons, signboards, or even some bubbly.

Without having to impress you with big and fancy words let our photographs do the rest of the convincing.
