My passion is people and nature! So when I combine the two I am really at my happiest. My objective, in this work that I enjoy doing, is to make people feel comfortable and 'at home' in the time that they spend with me, and to create memories and images that will last forever, so as to give them joy when they look back at them in years to come!Weddings are one of my most favourite events to photograph and each one is extra special to me with its own dynamics! I am never without my camera and therefore always on the lookout for an opportunity to record whatever I see that looks interesting and beautiful. Photographing Children's Parties is also one of the great joys of my life, because although I don't have my own children, I have always been involved with them since I taught Dancing for 28 years to children from 3 years old and adults.I don't only enjoy photography! I love anything creative and therefore you will see me creating many arts and crafts as well and some I use in my photoshoots as props or clothing accessories for portrait shoots, newborns etc.
