We, Liane and Arno , found our second home here in South Africa.After having travelled many times to Asia (Thailand, Malaysia, Singapore), Florida, Mexico, Martinique, Seychelles, Kenya and several European countries, we now simply know where we like it most. From the first time on, when visiting friends, we got infected by the Africa-Virus and where determined to create our future in this great country.Our Kids Aileen and Chane´ are both born in South Africa.
