About Us Established in 2006, Faitsch Products has grown to become a respected supplier of a wide range of well known German imported products to the Southern African market. Our commitment to quality, which is evident in both our service and products, has helped us to achieve the reputation we hold today. Faitsch Products is the exclusive importer and distributor for: Spartherm "The Fire Company" Wamsler fireplaces Jeremias chimney systems Aztec roof flashings Silca insulation boards (for thermal insulation and fire protection) Renz mailboxes and postal distribution systems Brand Fenstertechnik GmbH double and triple glazed windows, roller shutters and entrance doors CB-Tec air vents. Faitsch Products supplies several wholesalers and retailers as well as building contractors and the general public. We are committed to delivering products that have met strict compliance specifications. Our product ranges are renowned for their precision, quality, design and safety. They are environmentally friendly, hazard free, efficient, secure and cost effective. Our company has garnered a sterling reputation for its high standards of service excellence and quality control. Our showroom at the Gants Centre (Strand/Somerset West) is open to the public from Mondays to Fridays. Clients can

view our wide product ranges, and our team of experienced consultants is available to advise and guide you in your purchasing choices. We keep large quantities of stock at our warehouse to reduce lead times and are at the disposal of wholesalers, retailers, architects, building contractors (and their clients) to assist from the initial planning stages right through to final installation.
