About Wedding Cakes Having a Wedding cake is a very special part of a couple's Wedding day traditions. It is often an important focal point at the Wedding reception and Delana's Cakes will be happy to supply you with the cake of your dreams! Delana has a wide variety of trusted family recipe's and having worked with many wedding couples, she can be the guide needed to design the perfect cake that reflect you as a couple's unique style and personality. She believes in affordability without having to sacrifice attention to detail and all cake orders are always freshly baked with only the best ingredients to ensure that the cake is not only beautiful to look at but tastes delicious too.

From an intimate Beach wedding set up to the grand ballroom on a luscious Wine Farm, she will be there to lend a hand in delivering and setting up the cake so that you can focus on the most important part of the wedding – YOU!

Ordering a cake without any idea of what it may taste like can understandably be stressful. Therefore taster cakes can be ordered to take home and enjoy so that you can be certain you are ordering a cake that suits your taste.

For your convenience all arrangements can be made via email, however, consultations can also be arranged if you would like to do some brain storming over a cup of coffee!
