Eighty-one percent of shoppers conduct online research before they make a purchase. Sixty percent begin by using a search engine to find the products they want, and 61 percent will read product reviews before making any purchase. On average, a consumer will visit three listings before making their purchase.This make it essential that your presence on the internet stands out from the crowd. It is no good to just to be present on a list of online directories that display just your contact details. Your USP needs to immediately demand attention. The person researching needs to know what makes your company different from the others. After reading your USP they need to have access to what your company and its products are about.Helderberg.biz achieves these objectives for an incredibly low cost. Our Advanced Listing provides as much information as a having your own webpage but without the hassles and costs of getting involved with a website developer, hosting contracts, SEO etc. We have your listing up and running in 24 hours from payment. You can login to your listing whenever you wish and make changes to keep it up to date. Or you can just email us and we immediately make the changes you want.
