NeVeTeC is a service provider of AFISwitch who interfaces with the SAPS AFIS to validate the criminal record status of an individual. Our system provides fingerprint electronic criminal record status checks, based on fingerprints using live scan or FBI-approved flatbed scanner fingerprint data. NeVeTeC Police Clearance is an appointed service provider to render this service to all Companies, Agencies and Institutions. (Corporate and Private) NeVeTeC is a service provider of IDECO AFISwitch from 2007 currently known as AFISwitch. As published in the Government Gazette Vol. 496 dated 27 October 2006 No. 29319 Notice 1502, the service was rendered to do all non-Criminal Clearances to Ideco AFISwitch. NeVeTeC is one of the first service providers and see ourselves as the leading service provider on the field of Fingerprint Electronic Clearances. Services AFISwitch Workstations Your organization can purchase your own AFISwitch License and Scanner to do criminal clearances. After a four hour training session you are good to go and do your own criminal clearances. Terms and conditions apply Fingerprint ID verification - Department of Home Affairs (DHA) Identity Number and Fingerprint Verification - Verify the identity of a person positively using a combination of a person's identity number and thumb print/s. The result confirms whether the identity number

page 1 / 3

captured matches the thumb print/s or not. The result also returns the Names and Surname of the person linked to the captured identity number, including an Alive or Deceased status, i.e. the same as for a DHA Identity Number Verification. When printed the photo will not print because of security reasons. DHA Identity Number Verification Verify the identity of a person using an identity number only. The result returns the Names, Surname and an Alive or Deceased status of the person linked to the captured identity number. Kindly note that the DHA Identity Number Verification is not performed against a commercial database but against the database of the DHA System.
