LINARES ARCHITECTS was established in 1991 in South Africa, following years of experience overseas, the practice combines experience and new talent in the pursuit to produce well designed and environmentally conscious solutions. About Linares Architects The journey started long ago, crossing the Atlantic Ocean and the Mediterranean Seas and within South Africa from a place between the Highveld and the coast, this is how we trace back the lines of the persons that are part of our practice.

We all bring different skills and knowledge, combining experience and youth in our practice that is energetic and self-motivated to produce ARCHITECTURE. Attends the Client's specific needs with technical and design innovation through 27 years of professional activity. The practice is motivated by a sense of social responsibility, offering in house training and a programme of transfer of skills to previously disadvantaged communities in Cape Town, South Africa. The scope of Projects includes Education, Health Care, Residential, Commercial and Leisure in the public and private environments.
