Solar Swimming Pool Covers Cape TownPlastic Repair Centre is situated in the Parow area. We are suppliers of UV 500 Micron, Solar Swimming Pool Covers, also known as Swimming Pool Blanket / Bubble wrap pool covers. We stock 3, 4, 5 Metre width Pool Covers.Affordable and Quality Pool CoverOur, pool covers boast many benefits over standard pool covers. You can find more information below about our product.Send us your pool measurements via the Quote Request Form at the bottom of this page.PS. When doing your research or considering of making a purchase of a pool cover, make sure to go with minimum UV 500 Micron quality to get your money's worth.Solar swimming pool covers are designed with thousands of tiny air bubbles to capture solar heat and transmit the heat to the water in your pool.This helps retain your pool temperature and prevent up to 95% of water evaporation, keeping your pool warm even at night or on cloudier days.Our pool covers are made of a durable resin which also helps block dirt and debris from entering your pool, keeping your pool cleaner as well as warmer.BenefitsIncreasing temperature: warm your pool by up to 8 degree.Reduce your heat loss by up to 75%.Save water: reduce water evaporation by up to 97%.Reduce the pool’s chemical consumption by 50%.Free your pool from dirt, insects or leaves.Non-toxic,

eco-friendly, durable, resistant to bacteria and fungus.Note. This is not a safety cover. Please take other safety precautions to avoid children or animals drowning. We cannot be held liable
