Plastic Repair Centre is a Cape Town based company founded by Mesut Dinler in 2011 and specialises in Automotive Plastic Repair.Our mission is to provide prompt, friendly service to our clients, with our work being of a high quality and reasonably priced. Currently we service clients across the Western Cape as well as in Durban and Johannesburg.We have worked hard to have a strong reputation with both wholesale and retail customers. Our continued repeat business and word of mouth referrals are as a result of our excellent service and quality product.Our plastic welding product launched in Europe in 2009 and currently fills a significant gap in the market nationwide, where plastic component repair has been lacking.This revolutionary auto plastic repair technique is one of its kind in South Africa.At Plastic Repair Centre, we repair all plastic. Our services range from repairs of plastic bumpers, plastic fuel tanks, boats and watercraft, kayak and motorbike fairing repairs. Our trained staff use specialised plastic welding equipment to professionally weld and repair of all plastic parts. Our repair strength is guaranteed to be as strong as new.Once primed and sprayed repairs will be smooth and undetectable and should last the life of the product. Plastic repair is not only cost efficient, but it is also an environmentally conscious option as we do not have to use resources and

energy to produce a new item or need to dispose of the damaged old item.Contact us to see how we can meet your needs. We have an option to courier parts for customers outside of Cape Town.We do automotive plastic welding on the following componentsPlastic Bumper RepairFuel Tank RepairMotorcycle Fairing RepairMirror Cover RepairCar Mirror RepairWasher Bottles RepairDoor Panels RepairFront Panels RepairPlastic Mudguards RepairWater Tank RepairRadiator RepairReservoir (Water Tank) RepairAir Filter Boxes RepairSump Guards RepairSpray Tank RepairAgricultural RepairIntake Manifold RepairHeadlight Housing RepairFan Shroud RepairLoader Mud Flaps Repair
