Chiropractic is an art, science and philosophy that specializes in restoring normal balance and function to the neuromusculoskeletal system and thus, facilitates the body's natural ability to heal itself. At The Chiropractic Health Centre we aim to facilitate your return to normal mobility, health and well-being through hands-on therapy and lifestyle rehabilitation. Our Chiropractors are highly skilled at assessing, diagnosing and treating neuromusculoskeletal conditions and specialize in the biomechanical integrity of the spine. We provide treatment for the whole family relating to neck/back pain, headaches, acute and chronic sports injuries, pregnancy-related back pain, post-surgical rehabilitation, inflammatory and degenerative conditions. Our practitioners place emphasis on ensuring that our knowledge and treatment methods are up-to-date with the current literature and make use of the latest, evidence-based treatment modalities in order to optimize your recovery and health.
