ABOUT USSituated in the greater Helderberg region of the Western Cape, Rock and Stone is a renowned veteran in the stone fabrication industry. Specializing in Engineered, Porcelain and Natural Stone varieties, specifically, Granite, Marble, Onyx and Sandstone, Rock and Stone caters for every need and individual's taste. Our approach is simple, yet effective; and each individual within the organisation abides by our company's ethos; namely:1. We endorse an open-communication policy between staff and clientele 2. We aim to find effective solutions to problems 3. We strive to improve our standards in every project we undertakeWE ARE BIBC & BEE REGISTEREDYes We Can Install Internationally.We have done work in Mauritius, Zambia, Nigeria and we are on our way to Costa Rica.We are fully equipped to handle any size project internationally.OUR PRODUCTSCounter TopsRock and Stone is a leader in matching the perfect natural stone or engineered stone with your spectacular designer kitchen or bathroom. Modern kitchens with bold designs that are made to last from engineered stone and natural stone products are a hallmark of what we do here at Rock and Stone.Wall & Floor CladdingWall and floor cladding with modern materials such as Dekton, Florim and Neolith is a very nice way of creating a feature wall or for rounding off your new

room perfectly. These products come in 6, 8 & 12mm thickness which makes it ideal for cladding.Granite, Marble and Engineered Stone can also be used successfully for wall cladding to create an impressive feature in showers, fireplaces and floors.Cobbles & KerbsCobbles are timeless and cost effective and add an appealing authenticity to any project where a rustic effect is desired.Cobbles are made from natural stone granite material such as Rustenburg and can be supplied with a split faced or tumbled finish. Split face give a rough look and tumbled a smoother finish. This will ensure a lovely rustic effect when used in creating a beautiful outdoor entertainment area or a paved pathway or driveway.Our ColoursWe supply a large variety of products ranging from Marble, Granite, Onyx and natural stone to Porcelain and Quartz Engineered stone surfaces.  Click on the PRODUCTS below to view the different colours we can offer. Contact us so we can consult with you to make the right choice to meet your desires and bring your vision to life.Our FactoryWe pride ourselves in our full fitted factory with the best machines enabling us to give quality workmanship and service.?We use large scale bridge saws and mitre machines to do our cutting and Jennylyn machine for polishing of slabs. To achieve perfect edges and profiles, we make use of hand polishing machines.
