ACCREDITED TOUR GUIDE WITHIN THE WESTERN CAPE

Amidst the wonder and beauty that is Cape Town, or as we like to locally refer to her as, “The Mother City”, is where I was honoured to be born and raised. My passion for South Africa and its exceedingly diverse and multi-cultural society has been at the forefront of my career choices, which have led me to where I am today. Prior to becoming a guide and Certified Close Protection officer, my formative years were equally enthralling, working in the film industry as a stunt actor, mostly in the role of police, security and the occasional thug. This placed me in the fortunate position to be paid to “work” in beautiful locations, surrounded by nature, throughout South Africa! The idea to become a local tour guide was ignited in 2014. I had the opportunity to enjoy a small role in an episode of “Homeland” as the lead bodyguard. Whilst driving the cast around in-between locations I was asked about Cape town, its history, sights, and experiences. As I began narrating the story to them, of everything I knew, this idea of actually training to become a tour guide teased my mind..Fast forward to today, a few years later and my vision is has come to life. When not guiding I work for security companies in the Corporate and Private sector. MISSION My mission as your tour guide is to foster a fun, safe experience, that transforms your Cape town experiences into everlasting memories.

invite you to see why South Africa is known as the destination where you can
“experience the world within one country”. Our numerous landscapes, cultures and
gastronomic delights will render an unparalleled feast for the
senses. VALUE Accredited Guide Proudly South African Passionate about Cape town
and committed to sharing its beauty with you Serious about safety and
