Suppliers of High-Quality Concrete Block Pavers Cape Town Western Cape Our concrete block paving can be applied across all sectors. OUR COMPANY C.E.L. Paving Products is a leading manufacturer of an extensive range of concrete block pavers. Our operation focuses on the production of top quality wet and dry cast pavers, both for the construction industry as well as for end-users. Our head office, in Sysen Road Blackheath, houses our production facility which manufactures our multi-award winning range of exposed aggregate products. In addition to this, we operate the balance of our manufacturing from our Rand Road and Waggie Road factories, also in Blackheath. Our commitment to quality and innovation has led to us being leaders in concrete block paving production, in the Western Cape and across South Africa. We continuously strive to produce top quality products, which is enabled by our team of industry professionals. Each factory has a dedicated team which, at all times, monitors to ensure top quality during the various manufacturing processes. With this dedication our aim is to offer service and product excellence which befits our company tagline of "solid. quality". C.E.L. Paving Products remains the most sought after manufacturer of concrete block paving, which has resulted in our pavers being specified for a number of prestigious projects. The many awards

bestowed on us further highlights the preference for our solid, quality products across all market sectors. Please make contact with any one of our amazing team who look forward to being of service.
