ABOUT SOLAR COMPLIANCESolar Compliance is an exciting venture dedicated to making a mark in the energy industry with our fresh ideas and entrepreneurial spirit. With a strong focus on staying abreast with industry best practices, we deliver transformative solutions that empower our clients to focus on their core business, while a trusted partner takes care of the part that doesn’t serve their growth prospects.Our team represents over 100 years’ experience in the Energy with many diversified takes on the different energy future of South Africa and that of Africa at large. Our business has rapidly grown, and our drive to create something extraordinary which started with a simple idea has brought us together. Our team of highly skilled professionals combines deep domain expertise with technical excellence to deliver superior solutions tailored to meet our every clients’ unique needs.We are driven by the ever slowing approaching inclusive energy sector on the continent, with less regulations and more opportunities to bring attainable and permanent energy solutions. The future of Energy on the African Continent is heavily reliant on Renewable and Sustainable Solutions and we at Solar Compliance are here for it. We have to keep abreast with International Best Practices which include Renewable Energy Transition, Energy Efficiency Measures, Grid Modernization and Smart Grids, Energy Storage, Electrification of Transport Systems, Energy Management Systems, Energy Access and Affordability and Policy

and Regulatory Framework.We handle all the paperwork, regulatory framework, submissions until certificationsWith governments on the continent making way for an inclusive energy sector there is need for gatekeepers who will make sure the various industry players are compliant with industry regulations. Solar Compliance is founded on that dream of sure installations are secure and comply with industry best practices.WHAT WE DOSSEG Council RegistrationWe provide SSEG Council Registration with both City of Cape Town and Eskom – based on well informed experience, we keep abreast with changes in regulations.Solar InstallationsWe have various teams and partners in different parts of the country to design and manage, installations and use our vast database of energy partners to meet deadlines.Engineering ServicesOur engineering Services include engineer sign-Off planning, system design, setting goals and milestones to monitor progress for clients who want to become energy independent.Strategic PartnershipsWe are strategic partners – with various industry players to timeously deliver projects and services to bring tailored made solutions.SERVICESSSEG Council RegistrationWe provide SSEG Council Registration with both City of Cape Town and Eskom – based on well informed experience, we keep abreast with changes in regulations.Solar InstallationsWe have various teams and partners in different parts of the country to design and manage, installations and use our vast database of energy partners to meet deadlinesEngineering Services Our engineering Services include engineer sign-Off planning, system design, setting goals and milestones to monitor progress for clients who want to become energy independent.Strategic Partnerships We are strategic partners – with various industry players to timeously deliver projects and services to bring tailored made solutions.Change of Meter Applications and InstallationWe offer change of Meter Applications and Installation – Prepaid, Advanced Metering Infrastructure (AMI) and New Meter Applications Certificate of Compliance (CoC)Certificate of Compliance (CoC) – Supplementary and Initial CertificatesLine DiagramsSingle line diagrams for grid tied, hybrid, off grid and standby systems.Photovoltaic Geysers RegistrationsReinstatement and reconnection of systemsReinstatement and reconnection of systems that have been declared illegal.
