

PETS - Pets Empowerment In Townships Western Cape

Helderberg

Phone: +27 83 852 0371

PETS is a PRO-LIFE, PRO-ACTIVE Animal rescue organisation. We believe that all animals deserve a 2nd or 3rd chance so we will never put an animal down due to not being able to find them a forever home. We are realistic though, and when an animal's life is insufferable due to illness, injuries etc, we will give them a loving passing on. We live and operate mainly from home, a beautiful plot in Sir Lowrys Pass, Gordonsbay. All rescued animals come straight into my home, where they are evaluated for injuries and sicknesses. They are then treated and placed into foster homes where they have the opportunity to be part of a loving family. Our animals do not sit in cages as we do not have premises but also because that is not our vision. OUR FOCUS: We focus on impoverished townships where people have little or no income and cannot give their animals the medical care they need. We try to improve the lives of these disadvantaged animals by providing the following: Sterilisation - mass sterilisation campaigns to curb abuse and unwanted litters of animals that directly lead to neglect. Vet Care (medication: de-worming, dipping, inoculations, tick & flea treatment, etc.) We have a dedicated vet assisting us at welfare rates. Emergencies (operations, stitches, blood tests, cancer treatment, euthanasia - only in extreme cases of pain or sickness). Provision of food

and shelter for animalsEducating children & adults regarding pet-care and discouraging abuseRescuing & re-homing those animals that are unwanted, unloved or lost.
