Our Team Our team of nail care experts is passionate about what they do and dedicated to providing excellent customer service. We take the time to get to know our clients and understand their needs so that we can provide personalized service and the best possible results. Whether you're a longtime client or visiting us for the first time, we'll make sure you feel right at home.
HOW LONG DOES A BIO SCULPTURE MANICURE LAST? Bio Sculpture will last two to three weeks on your

nails. Some clients may last longer as they look after and maintain their nails well and others clients who have oily nails or are hard on their nails may only last one to two weeks.

WHAT IS THE USE OF CONDITIONING GEL?Conditioning Gel removes easily, even from damaged or thin nails. Conditioning Gel conceals imperfections, giving the nail a beautiful natural finish. Yes, Conditioning Gel can be used to extend the length of the free edge on thin, soft and weak nails. Yes, Conditioning Gel can be used to saturate silk.

HOW LONG DO BIOGEL NAIL EXTENSIONS LAST?Durable, yet flexible natural gel nail extensions. Damage free nail hardening treatment that enhances growth of the natural nail. These nail enhancements last up to four weeks.

SHOP BIO SCULPTURE (CLICK THIS HEADING TO REDIRECT TO OUR WEBSITE FOR MORE INFORMATION)The Bio Sculpture Advantage?Bio Sculpture offers premium nail care systems and comprehensive professional training, prioritising nail health and longevity. Total Nail CareOur product range encompasses diverse options catering to professional nail technicians and the discerning consumer. From advanced gel systems and nail care treatments for professionals, to convenient home care solutions and lush spa products.

About UsSince childhood, Elmien was fascinated by beautiful nails. This fascination became her passion. After completing her studies at the CIDESCO Beauty Academy, Elmien opened her first salon. Unable to find any premium quality nail care products, she continued her studies in the USA attending training in artificial nail systems. Elmien concluded that if she wanted a leading nail care product to meet all the requirements it would have to be developed from the ground up. Her goal was not only set on beautiful nails, but also on nail health. By consulting with the best scientists in their respective fields and applying the latest technologies available, Bio Sculpture Gel was born from a humble beginning with passion, hard work and the faith of a true pioneer and today it's the leading nail care solution. Today the Bio Sculpture head office is situated in the heart of South Africa in the small town of Clocolan, playing an important role in the socio-economic environment, surrounded by the breath-taking African landscape. The 3000sqm

ultra-modern factory is an environmentally friendly building with regulated ventilation systems, boasts self-supportive water storage and optimises natural lighting. The factory is ISO 22716 certified for Good Manufacturing Practices and is managed under ISO 9001 Quality Management Systems. The warm-heartedness of Bio Sculpture is not only tangible in the factory but is extended to the global Bio Sculpture Family. ScopeBio Sculpture SA (Pty) Ltd designs, develops manufactures and markets nail care, beauty products. We strive to adhere and maintain Quality Management System in line with ISO 9001:2015 and ISO 22716 in all aspects and stages of our business operations. Bio Sculpture ensures that products, cosmetics and staff will comply with ISO 9001:2015 and also GMP ISO 22716. Quality Policy Statement
