WHO WE ARE Blended Business Solutions is committed to driving business excellence by equipping organizations with the tools, knowledge, and systems needed for sustainable growth and compliance. The company understands that businesses face increasing pressure to meet international quality, safety, and regulatory standards while maintaining efficiency and competitiveness. To address these challenges, Blended Business Solutions offers expert consulting and training services tailored to enhance operational effectiveness and compliance. By implementing ISO management systems (ISO 9001, ISO 13485, ISO 45001, ISO 14001, and ISO 22000), the company helps businesses improve quality, regulatory compliance, and risk management, ensuring they meet global best practices. This empowers organizations to enhance credibility, streamline processes, and achieve long-term sustainability. Recognizing the critical role of MSMEs in economic development, Blended Business Solutions provides targeted consulting services to help small and medium enterprises formalize, access markets, and secure funding. Their mentorship and business development programs equip MSMEs with the necessary skills to thrive in competitive industries. As an accredited PECB training partner, the company offers internationally recognized training programs that upskill professionals, enhancing workforce capability and organizational performance. Through these services, Blended Business Solutions fosters business

resilience, regulatory compliance, and strategic growth, positioning its clients for long-term success.

### ISO MANAGEMENT SYSTEM SERVICES

Blended Business Solutions specialises in ISO management system implementation, auditing, and certification support to help businesses achieve compliance, operational efficiency, and global competitiveness. Our expert team provides end-to-end services, ensuring organisations meet international quality, safety, and environmental standards while improving performance and customer satisfaction.

### WHAT WE OFFER

#### OUR KEY ISO SERVICES

**ISO Management System Development & Implementation** We design and develop customised management systems tailored to your organisation's needs, ensuring compliance with ISO standards, industry regulations, and best practices. Our approach focuses on process optimisation, risk management, and continuous improvement.

**Internal Audits & Compliance Assessments** Conduct internal audits to identify gaps, ensure ongoing compliance, and prepare for third-party certification audits, reducing risks and improving overall system effectiveness.

**ISO Certification Support & Training** We provide customised training, consulting, and documentation support to guide your organisation through the certification process, ensuring a smooth and efficient transition to ISO compliance.

**ISO 9001 – Quality Management System** Enhance efficiency, customer satisfaction, and operational excellence with a structured quality management framework that promotes continuous improvement and compliance with global best practices.

**ISO 13485 – Medical Devices Quality Management** Ensure compliance with medical industry regulations by implementing robust quality management systems for medical device manufacturing, distribution, and servicing, meeting international safety and reliability standards.

**ISO 14001 – Environmental Management System** Demonstrate your commitment to sustainability and environmental responsibility by managing environmental risks, reducing waste, and ensuring compliance with environmental laws and best practices.

**ISO 22000 – Food Safety Management System** Strengthen food safety controls, improve supply chain management, and comply with global food safety regulations to ensure the highest standards in food production and distribution.

**ISO 45001 – Occupational Health and Safety Management System** Enhance workplace safety, reduce occupational risks, and improve employee well-being by implementing a globally

---

recognised health and safety framework. Ensure compliance with regulatory requirements and foster a proactive risk management culture to create a safer working environment.

**MSME CONSULTING SERVICES** At Blended Business Solutions, we are dedicated to empowering Micro, Small, and Medium Enterprises (MSMEs) with the expertise and support needed to drive business success. Our tailored services are designed to help businesses develop strategic plans, enhance operational efficiency, and achieve sustainable growth.

**Business Plan Writing** A well-structured business plan is essential for securing funding, attracting investors, and guiding your business toward success. Our team crafts comprehensive business plans tailored to your industry, ensuring clarity in vision, strategy, and financial projections.

**Learn More**

**Business Profiles** Your business profile serves as the first impression to potential clients, investors, and partners. We develop compelling and professionally designed business profiles that showcase your company's strengths, capabilities, and value proposition.

**Learn More**

**Feasibility Studies** Before launching a new venture or expanding an existing business, a feasibility study is crucial to assess the viability and potential risks. Our experts conduct in-depth market research, financial analysis, and risk assessments to provide you with data-driven insights.

**Learn More**

**Business Valuations** Understanding the true worth of your business is essential for investment, mergers, acquisitions, and financial planning. We offer professional business valuation services to help you make informed decisions based on accurate and reliable financial assessments.

**Learn More**

**Business Coaching & Mentorship** Navigating the challenges of entrepreneurship can be overwhelming. Our business coaching and mentorship programs provide hands-on guidance, helping MSMEs build leadership skills, refine strategies, and achieve long-term business success.
