Watchmen Group Accountable to God
Leading security company
PROTECT YOU AND YOUR FAMILY WITH HIGHLY TRAINED SECURITY PERSONNEL
ABOUT US
Watchmen Security is a Christian-based security company dedicated to fostering peace in Africa. Founded by Col (Ret.) Gert Schoombie in 2006 while residing in Kimberley, South Africa, we are committed to serving all individuals regardless of religion, race, ethnicity, or gender. Our core values emphasize the implementation of international best practices while conducting all activities with respect for people, cultures, and traditions. Initially, we focused on industrial security, particularly in the mining sector. However, in 2016, we identified the need for a rural security division to address poaching-related incidents in the Northern Cape. The escalation of our Watchmen Anti-Poaching Unit (APU) operations led us to implement an Area Protection Plan, collaborating with local farmer's associations. We integrated into larger organized agricultural structures such as Agri OK (Oranje Karoo), Agri NC (Northern Cape), and the South African Police Service (SAPS). Through this collaboration, we effectively implemented the Rural Safety Plan proposed by the South African Government. In addition to our work with SAPS, we actively engage with the Community Police Forum (CPF) to conduct regular crime-combatting operations. We also focus on training communities to protect themselves and establish their own reaction units. As a member of the Navic and Syntex groups, we

monitor all major roads, extending our vigilance even to neighboring provinces. With this comprehensive structure in place, we are well-equipped to address all forms of crime.OUR SERVICESLet us help you implement a robust safety structure through daily operations and an intelligent network designed to eliminate criminal activities. With years of experience, our team possesses the professional knowledge to assist you in safeguarding your property, whether it be buildings, machinery, mines, or livestock.Crime CheckKnowing the backgrounds of the people you work with is crucial, especially when they are responsible for protecting you, your family, and your belongings. We offer fingerprint biometric checks to screen for any criminal records for your employees, contractors, domestic workers, or gardeners.Fingerprint Biometric Checkcan be performed for the following:RecruitmentNational Credit Regulator (NCR)SecurityYou as an employer, can get the Crime Check Result within 48 Hours. Provided you have written consent from the individual.INDUSTRIAL PROTECTION UNIT (IPU)The Industrial Protection Unit focuses on safeguarding industrial buildings, mines, mechanical equipment, and building sites. Our comprehensive services include:Entrance Gate ControlOnsite CCTV Camera MonitoringDay and Night Patrolling of Your SiteFirst Aid Response Training for GuardsResponsible Armed Guards with Licensed FirearmsAREA PROTECTION UNIT (APU)Our Area Protection Unit primarily focuses on safeguarding farmlands. We leverage the unique skills of the San for the protection of livestock and other assets. The San guards are live-in guards, providing around-the-clock security. To ensure this, we relocate the relatives of your guard, offering you 24/7 protection. The San guards are also trained and licensed to use firearms.Our services include:Patrol at Lodges and BuildingsPersonal SafeguardFence PatrollingFarm Patrolling and Livestock CareReaction ForceAnimal Recovery
