## SOLUTIONS FOR THE AFRICAN ENVIRONMENT FROM A SOUTH AFRICAN

COMPANY Castle Access Control Systems (Pty) Ltd was founded in 2000 and since inception has focused its philosophy on providing quality security products, as well as pioneering new products in the industry. We have branches in Cape Town and Johannesburg. We offer tried and tested solutions in one of the world's most demanding environments. We are innovative and dedicated to providing top quality reliable products at economical prices. Many of our original products that were used in installations are still in operation despite advances in technology. We have a number of agencies for South Africa manufacturers that we represent and sell for. We also have a number of international agencies from which we import and hold stock, spares, do repairs and offer training. Castle Access Control Systems (Pty) Ltd specializes in the supply of state of the art security related equipment for industry, business and personal safety. Products include biometric facial and fingerprint access control using all types of cards and tags, Intercom and telephone systems, CCTV equipment and control room software, CCTV special lighting, gate automation, electric fencing, seismic sensors, power supplies, and a host of other specialized products. Boom Gates, Walk Through Metal Detectors, Hand Held Metal
